

HARMONY AND BALANCE IN A VILLA IN FLANDERS

Environment, spaces and personality. These are three main pillars on which a strong and coherent interior is designed by Marie Lecluyse Interior Architecture.

In this newly built home, Marie’s vision comes full circle. With an eye for detail, she weaves an interior that embraces the essence of natural beauty. The materials she chooses, such as natural stone, warm ash veneer and neutral mineral plaster around walls and ceilings, create a harmonious interplay of textures and colors.

But it’s not just the choice of materials that make this home one of a kind. It is the strong design that embraces the space and the loose furniture that fills it like a work of art. The whole stretches outward, where it blends seamlessly into the surrounding nature. It is a place where you can unwind and feel at home.

Daylight is central to this home. Light dances through the spaces and accentuates the interiors and textures throughout. The circulation is thoughtful, spaces flow seamlessly, creating a sense of harmony and balance.
